- Supervise, train, and manage warehouse staff, ensuring adherence to company safety protocols and quality standards.
- Coordinate shipments of finished products to customers and distribution centers.
- Develop and implement warehouse procedures to improve efficiency, reduce waste, and maintain high standards of cleanliness and safety.
- Conduct regular stock audits, maintain accurate records, and manage inventory levels to support production schedules.
- Ensure that all warehouse activities comply with health and safety regulations, environmental standards, and company policies.
- Oversee the use and maintenance of warehouse equipment, including forklifts, pallet jacks, and racking systems.

Qualifications:

- 3+ years of experience in warehouse or supply chain management (experience in food/beverage or brewing preferred).
 - Strong leadership and team management skills.
 - Knowledge of warehouse software and inventory control systems.
 - Forklift certification (or ability to obtain).
 - Excellent organizational and problem-solving abilities.
 - Ability to lift 50 lbs and work in a warehouse environment.
 - Passion for craft beer and understanding of brewery operations is a plus.
-

What We Offer:

- Competitive salary based on experience.
- Health and dental benefits.
- Employee discounts
- Opportunities for growth in a rapidly expanding brewery.
